Solar Pro Masacril® para toldos, náutica y mobiliario de exterior

SAULEDA utiliza fibra acrílica de la más alta calidad, ideal para aplicaciones al aire libre por su excepcional respuesta a las condiciones más exigentes.

Características del tejido acrílico 100%

Nuestra colección de tejidos de protección solar, son 100 % acrílicas y tintadas en masa. Esto significa que el tejido es tintado directamente en la masa de la fibra acrílica, lo que garantiza una óptima resistencia del color a los rayos UV. Esto garantiza una mayor durabilidad del color y la resistencia del mismo a la intemperie a lo largo del tiempo.
